## **CERTIFICATE OF COMPLIANCE**

To Whom It May Concern:

This document certifies that the Wavelength Electronics part numbers in the following list are manufactured in accordance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003, better known as the RoHS Directives, with regards to restrictions of the use of certain hazardous substances used in the manufacture of electrical and electronic equipment.

According to the due diligence requirements of the directives, all raw parts have been certified compliant by WEI vendors and suppliers. WEI internal processes do not introduce any of the restricted materials into the final product.

For parts that are not tracked by lot number, first date of manufacture of RoHS compliant parts is indicated. Parts with lot numbers starting with those listed or numerically higher are RoHS compliant.

The information provided in this document is correct to the best of Wavelength Electronics' knowledge at the date of its release. The intent of this document is not to be considered a warranty or quality specification.

Authorized Signatory for Wavelength Electronics Inc.

Mary W. Knighton, CEO
