CERTIFICATE OF COMPLIANCE

To Whom It May Concern:

The European Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was enacted in June of 2007, and is designed to consolidate various pieces of legislation within Europe and improve the level of information available on chemical usage within the supply chain. Of particular concern are the chemicals on the Substance of Very High Concern Candidate List.

We have carefully reviewed the requirements set forth by REACH, and can distill it down to this:

Manufacturers are required to proactively notify customers when articles contain >0.1% of Substances of Very High Concern (SVHC). We are pleased to report that our products contain none of the SVHC substances listed on the Candidate List (as of June 27, 2018).

We are committed to ensuring continuing compliance with REACH initiatives, and pursuing sustainability globally. We will continue to monitor any changes to the REACH legislation and SVHC Candidate List. If you require any further information of the impact of REACH on our products, or if you have questions about our REACH compliance, please contact our Sales department.

Authorized Signatory for Wavelength Electronics Inc.
